

Rabbit antibody to IP3R 1 (700-750)

Code OST00428W

ID Tag Rb2269-271213-WS

Unit size 100 μl

Immunogen A synthetic peptide from aa region 700-750 of human IP3R1 conjugated to blue carrier protein was

used as the antigen. The peptide is homologous in rat and mouse.

Conjugate Unconjugated antibody

Also known Inositol 1,4,5-trisphosphate receptor type 1, IP3 receptor isoform 1, IP3R1, InsP3R1, Type 1

inositol 1,4,5-trisphosphate receptor, Type 1 InsP3 receptor, INSP3R1

Host NZ white rabbit
Purity Whole serum
Clonality Polyclonal

Isotype Polyclonal, whole serum

Applications IHC, WB (confirmed by recombinant protein). A dilution of 1:300 to 1:2000 is recommended. The

optimal dilution should be determined by the end user. Not tested in other applications.

Specificity Specific for INSP3R1.

Spcs X-react. Human. Other species not yet tested but expected to work in rat and mouse.

Format Lyophilised

Reconstitution Reconstitute in 100 µl of sterile water. Centrifuge to remove any insoluble material.

Storage Maintain the lyophilised/reconstituted antibodies frozen at -20°C for long term storage and

refrigerated at 2-8°C for a shorter term. When reconstituting, glycerol (1:1) may be added for an

additional stability. Avoid freeze and thaw cycles.

Expiry Date 12 months after reconstitution

Shipping This item will be shipped to you at ambient temperature in a lyophilised form.

Limitation For research use only

IHC-P on paraffin sections of rat cerebellum.

The animal was perfused using Autoperfuser at a pressure of 110 mmHg with 300 ml 4% FA and further post fixed overnight before being processed for paraffin embedding. HIER: Tris-EDTA, pH 9 for 20 min using Thermo PT Module.

Blocking: 0.2% LFDM in TBST filtered thru 0.2 µm.

Detection was done using Novolink HRP polymer from Leica following manufacturers instructions.

Primary antibody: dilution 1: 1000, incubated 30 min at RT (using Autostainer).

Sections were counterstained with Harris Hematoxylin.
