

Rabbit antibody to DRAM

Code	OSD00007G
ID Tag	Rb444-150608-G
Unit_size	500 ug
Immunogen	A synthetic peptide from aa region 160-210 of human DRAM conjugated to blue carrier protein has been used as the antigen. The antigen shares 85% identity with mouse's and rat's.
Host	NZ white rabbit
Purity	IgG
Clonality	Polyclonal
Applications	IHC, WB. Use at a concentration of 10-50 ug/ml. The optimal working concentration should be determined by the end user. Not yet tested in other applications.
Specificity	Specific for DRAM.
Spcs_X_react	Human, rat, mouse. Other species not yet tested.
Format	Lyophilised
Reconstitution	Reconstitute in 500 ul of sterile water. Centrifuge to remove any insoluble material.
Preservatives	
Storage	Maintain the lyophilised/reconstituted antibodies frozen at -20C for long term storage and refrigerated at 2-8C for a shorter term. When reconstituting, glycerol (1:1) may be added for an additional stability. Avoid freeze and thaw cycles.
Expiry_Date	12 months after reconstitution
Limitation	For research use only
