

Rabbit antibody to VAMP A/B (50-100)

Code	OSV00014W
ID Tag	Rb470-150608-WS
Unit size	100 µl
Immunogen	A synthetic peptide from aa region 50-100 of human VAMPB conjugated to blue carrier protein was used as the antigen. The peptide is homologous in many species including human, rat, mouse, zebra fish, bovine, xenopus and chicken.
Conjugate	Unconjugated antibody
Also known	VAMP-associated protein B, VAMP-B, VAP-B, Vesicle-associated membrane protein-associated protein B/C, VAMP-associated protein B/C, VAMP-B/VAMP-C, VAP-B/VAP-C, VAPB, VAMP A
Host	NZ white rabbit
Purity	Whole serum
Clonality	Polyclonal
Isotype	Polyclonal, whole serum
Applications	IHC, WB. A dilution of 1 : 2000 to 1 : 3000 is recommended for WB and 1:1000 to 1:2000 for IHC-P. The optimal dilution should be determined by the end user. Not yet tested in other applications.
Specificity	Specific for VAMP A and B.
Spcs X-react.	Human, rat, mouse. Other species not yet tested.
Format	Lyophilised
Reconstitution	Reconstitute in 100 µl of sterile water. Centrifuge to remove any insoluble material.
Storage	Maintain the lyophilised/reconstituted antibodies frozen at -20°C for long term storage and refrigerated at 2-8°C for a shorter term. When reconstituting, glycerol (1:1) may be added for an additional stability. Avoid freeze and thaw cycles.
Expiry Date	12 months after reconstitution
Shipping	This item will be shipped to you at ambient temperature in a lyophilised form.
Limitation	For research use only

IHC on free floating sections of rat spinal cord.
The animal was perfused using Autoperfuser at a pressure of 130 mmHg with 300 ml 4% FA before being processed for OCT embedding. Tissues were cut at 30 µm thickness.
Primary antibody: dilution 1: 2000, incubated overnight.
