

Rabbit antibody to phospho S271 & S274 of CREM

Code	OSC00063W
ID Tag	Rb708-060908-WS
Unit size	100 µl
Immunogen	A synthetic peptide to phospho S271 & S274 of human CREM (cAMP-responsive element modulator, Inducible cAMP early repressor, ICER) conjugated to an immunogenic carrier protein was used as the antigen. The peptide is homologous in rat, mouse and dog.
Conjugate	Unconjugated antibody
Also known	cAMP-responsive element modulator, Inducible cAMP early repressor, ICER
Host	NZ white rabbit
Purity	Whole serum
Clonality	Polyclonal
Isotype	Polyclonal, whole serum
Applications	IHC, WB. A dilution of 1: 300 to 1: 2000 is recommended. The optimal dilution should be determined by the end user. Not tested in other applications. This antibody may also recognise the unphosphorylated form.
Specificity	Specific for CREM.
Spcs X-react.	Human, rat, mouse. Other species not yet tested.
Format	Lyophilised
Reconstitution	Reconstitute in 100 µl of sterile water. Centrifuge to remove any insoluble material.
Storage	Maintain the lyophilised/reconstituted antibodies frozen at -20°C for long term storage and refrigerated at 2-8°C for a shorter term. When reconstituting, glycerol (1:1) may be added for an additional stability. Avoid freeze and thaw cycles.
Expiry Date	12 months after reconstitution
Shipping	This item will be shipped to you at ambient temperature in a lyophilised form.
Limitation	For research use only
