

Rabbit antibody to GAPDH

Code OSG00032W

ID Tag Rb659-060908-WS

Unit size 150 ul

Immunogen A synthetic peptide from rat GAPDH conjugated to blue carrier protein was used as the antigen.

The antigen is homologous in mouse and shares 90% identity with human sequence.

Conjugate Unconjugated antibody

Also known 38 kDa BFA dependent ADP ribosylation substrate, BARS-38, Glyceraldehyde-3-phosphate

dehydrogenase

Host NZ white rabbit
Purity Whole serum
Clonality Polyclonal

Isotype Polyclonal, whole serum

Applications WB. A dilution of 1: 2000 is recommended. The optimal dilution should be determined by the end

user. Not yet tested in other applications.

Specificity Specific for GAPDH.

Spcs X-react. Rat, mouse, human, marmoset. Other species not yet tested.Format Lyophilised. This product contains 0.02% benzalkonium chloride.

Reconstitution Reconstitute in 150 ul of sterile water. Centrifuge to remove any insoluble material.

Storage Maintain the lyophilised/reconstituted antibodies frozen at -20C for long term storage and

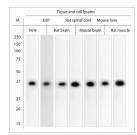

refrigerated at 2-8C for a shorter term. When reconstituting, glycerol (1:1) may be added for an

additional stability. Avoid freeze and thaw cycles.

Expiry Date 12 months after reconstitution

Shipping This item will be shipped to you at ambient temperature in a lyophilised form.

Limitation For research use only

WB on different cell lysates. Blocking: 1% LFDM for 30 min at RT; primary antibody dilution 1:2000 incubated at 4C overnight. Click on eLAB BOOK tab to see the details.
