

## Rabbit antibody to Olr247

ImmunogenA synthetic peptide from rat olfactory receptor (Olr247) conjugated to an immunogenic carrier protein was used as the immunogen.ConjugateUnconjugated antibodyAlso knownRat olfactory receptor Olr247HostNZ white rabbitPurityWhole serumClonalityPolyclonalIsotypePolyclonal, whole serumApplicationsHC, WB. A dilution of 1 : 200 to 1 : 2000 is recommended. The optimal dilution should be determined by the end user. Not yet tested in other applications.SpecificitySpecific for Olr247.Spcs X-react.Rat. Other species not yet tested.FormatLyophilisedStorageMaintain the lyophilised/reconstituted antibodies frozen at -20°C for long term storage and refrigerated at 2-8°C for a shorter term. When reconstituting, glycerol (1:1) may be added for an additional stability. Avoid freeze and thaw cycles.Expiry Date12 months after reconstitutionShippingThis item will be shipped to you at ambient temperature in a lyophilised form.LimitationFor research use only	Code ID Tag Unit size	OSO00015W Rb559-100808-WS 100 μl
Also knownRat olfactory receptor Olr247HostNZ white rabbitPurityWhole serumClonalityPolyclonalIsotypePolyclonal, whole serumApplicationsIHC, WB. A dilution of 1 : 200 to 1 : 2000 is recommended. The optimal dilution should be determined by the end user. Not yet tested in other applications.SpecificitySpecific for Olr247.Spcs X-react.Rat. Other species not yet tested.FormatLyophilisedReconstitutionReconstitute in 100 µl of sterile water. Centrifuge to remove any insoluble material.StorageMaintain the lyophilised/reconstituted antibodies frozen at -20°C for long term storage and refrigerated at 2-8°C for a shorter term. When reconstituting, glycerol (1:1) may be added for an additional stability. Avoid freeze and thaw cycles.Expiry Date12 months after reconstitutionShippingThis item will be shipped to you at ambient temperature in a lyophilised form.
