

Rabbit antibody to ATP8A1 (2-50)

Code	OSA00241W
ID Tag	Rb2147-011013-WS
Unit size	100 µl
Immunogen	A synthetic peptide from aa region 2-50 of human ATP8A1 conjugated to an immunogenic carrier protein was used as the antigen. The peptide is homologous in mouse.
Conjugate	Unconjugated antibody
Also known	Probable phospholipid-transporting ATPase 1A, ATPase class I type 8A member 1, Chromaffin granule ATPase II, ATP8A1
Host	NZ white rabbit
Purity	Whole serum
Clonality	Polyclonal
Isotype	Polyclonal, whole serum
Applications	IHC, WB (confirmed by recombinant protein). A dilution of 1: 300 to 1: 2000 is recommended. The optimal dilution should be determined by the end user. Not yet tested in other applications.
Specificity	Specific for ATP8A1.
Spcs X-react.	Human, mouse. Other species not yet tested.
Format	Lyophilised. This product contains 0.02% benzalkonium chloride.
Reconstitution	Reconstitute in 100 µl of sterile water. Centrifuge to remove any insoluble material.
Storage	Maintain the lyophilised/reconstituted antibodies frozen at -20°C for long term storage and refrigerated at 2-8°C for a shorter term. When reconstituting, glycerol (1:1) may be added for an additional stability. Avoid freeze and thaw cycles.
Expiry Date	12 months after reconstitution
Shipping	This item will be shipped to you at ambient temperature in a lyophilised form.
Limitation	For research use only
